a bottle of Chamberlain's Colic, Cholera IRON TONIC

Cannot be Gut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer.

No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a was a form.

Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-scated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for

Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

Only Blood Diseases can be Transmitted from One Generation to Another
